# ABOUT US

Founded in 2017 by Mr. Sharan Gautham Sakthivel, Lasak Technologies is a division of Lasak Groups of Companies.

IT products encompass a vast and ever-expanding range of devices and software that power our digital lives. From the essential hardware that connects us to the internet to the sophisticated software that fuels creativity and innovation.

# VISION

The world of IT products is constantly evolving, driven by innovation and the ever-growing human desire to connect, create, and progress.

# MISSION

The mission of IT products goes beyond simply creating faster computers or flashier gadgets.

## OUR PRODUCTS

 Mechanical Products

 Technology

 Civil Products

## OUR SERVICES

 Mechanical Projects

 IT Projects

 Civil Projects

## Technology Products

 Computers

 Networking Switches

 Wireless Antennas

 CAT 6 Cables

 Fiber Optic Cables

# Computers

## Description:

From essential components to the latest innovations, explore our comprehensive range of computer products

- Component Manufacturing
- Component Assembly and Testing
- Software Installation
- Testing and Quality Control
- Packaging and Distribution

## Products We Done:

- Hardware
- Software
- Peripherals

# Networking Switches

## Description:

Improved User Experience: Experience faster loading times, smoother video conferencing, and a more responsive network overall.

- Circuit Board Design and Manufacturing
- Component Sourcing and Assembly
- Soldering and Inspection
- Software Development and Integration
- Testing and Quality Control
- Assembly and Packaging
- Configuration and Deployment

## Products We Done:

- Ethernet Cables
- Rackmount Kits
- Cable Management Accessories

# Wireless Antennas

## Description:

Our antennas are designed to extend the reach and stability of your wireless network, ensuring you stay connected wherever you are.

- Design and Engineering
- Material Selection
- Fabrication
- Assembly and Integration
- Testing and Calibration
- Housing and Packaging
- Documentation and Quality Control

## Products We Done:

- Coaxial Cables
- Signal Boosters/Repeaters
- Directional Antennas
- USB Wi-Fi Adapters

# CAT 6 Cables

## Description:

Experience lightning-fast wired connections with CAT 6 Ethernet cables. Support Gigabit Ethernet speeds of up to 1 Gbps, ideal for high-bandwidth applications like streaming, gaming, and large file transfers.

- Conductor Drawing
- Insulation and Pairing
- Pair Assembly and Filling
- Sheathing and Jacketing
- Quality Control and Testing
- Printing and Labeling
- Spooling and Packaging

## Products We Done:

- RJ45 Connectors
- Cable Crimping Tool
- Cable Management Trays and Clips

# Fiber Optic Cables

## Description:

These innovative cables transmit data using light pulses, offering unparalleled speed, reliability, and security for your network.

- Preform Creation
- Fiber Drawing
- Proofing and Inspection
- Cabling and Strengthening
- Jacketing and Sheathing
- Quality Control and Testing
- Packaging and Shipping

## Products We Done:

- Fiber Optic Terminators
- Media Converters
- Fiber Optic Splice Closures

## Clients
